

The School for Schools is a project based on the idea of developing transferable educational leadership

competence. Project objectives are:

- to make teachers competent to function effectively and manage and positively influence their students, to take responsibility for sharing in decision-making relative to institutional issues;
- Encouraging teachers to self-direct their students and educational growth;
- Guiding teachers to promote in students and education professionals the skills to respond effectively to student differences by promoting an advanced understanding of human development; expecting and respecting diversity among individuals in educational settings; promoting understanding and respect for all members of the educational community; helping students, stakeholders, and colleagues develop a global perspective;
- Providing mentoring for students and colleagues.

Target group:

- High school teachers
- Pupils aged 14-19 years
- Primary and secondary school teachers, headteachers, and school staff in general
- Vet teachers and students with few opportunities

**THE SCHOOL FOR THE
SCHOOLS**
**An effective leadership in
challenging times**

Project number: 2022-1-IT02-KA220-SCH-
000089769

Project duration: 1.11.2022-30.4.2025
(30 month)

Results

The project is expected to last for a total of 30 months; time in which the following project results shall be attained:

Training Curriculum for school teachers on educational leadership:

The training Digital Curriculum for School Teachers, which focuses on enhancing school teachers' skills in (educational) leadership and effective methods needed to overcome both everyday and unexpected critical situations that may arise in or outside their classrooms. The programme aims to identify optimal methodologies and training pathways that bring together the main needs of teachers.

Leadership Education Blended course for teachers:

This result is a blended course that targets secondary school teachers to rethink the post-pandemic education process from a leadership perspective. The aim of the course is to equip secondary school teachers with leadership skills to transition teachers and students from the educational process during the pandemic to a face-to-face school adapted to the new educational needs of students. The course is structured in modules, with each module targeting a specific learning outcome.

Leadership Education for Teachers Online Space:

An interactive space, tailored for S4S e-learning designed to make it easy, intuitive and 'social' for teachers (the immediate target group) to use blended training.

Online Collection of Good Practices:

E-handbook (readable from mobile device with a safe, universally readable font, 80 pages) resulted by the activity carried out during the training.

THE PARTNERS

A leader is one who knows the way, goes the way, and shows the way.
